## Tennis is Back

It is great seeing so many people back playing tennis. Although we may be a little rusty, our effort is there.

- While there is no distinction between vaccinated and unvaccinated players on the courts, this does not extend to the clubhouse, so in the interest of congeniality, the HTC executive have decided to keep the clubhouse closed for players at the moment, with the exception of the toilets. Please be patient with us as we continue to navigate the return to normal!
- At this time the bubblers are not to be used and we encourage all players to bring their own water when they play. There are taps available to fill your water bottles, but please don't drink from the water bubblers.
- **Please use the QR code on the gate to check into the venue every time you play**

**All forms of tennis are making their return, some have started and some will restart next year.**

- No age limits for Tuesday and Friday Social Tennis
- MWL tennis will recommence in 2022 – Always looking for new players.
- Night tennis has recommenced but get your name in to play the new season in 2022
- Summer ERT season has commenced for Seniors and Juniors
